Low surface temperature (LST) towel rails should be fitted in certain buildings, used by children, the elderly or any other vulnerable people. This includes schools, nurseries, healthcare premises, homes for the elderly and most publicly accessible buildings.

Complies with **NHS Estates Health Guidance Notes on Safe Hot Water & Surface Temperature**. They come pre-filled with an anti-corrosion and antifreeze liquid. They have a fixed temperature electrical cartridge element with a built-in thermostat.

**The surface temperature will never exceed 43°C.** They also incorporate a thermal fuse as a safety feature.
